Susie Survivor

HELP SUPPORT NATIONAL BREAST CANCER AWARENESS
MONTH WITH THIS HANDMADE, FAIR TRADE DOLL.

Meet Susie Survivor, a new addition to the String Doll Gang from Kamibashi. This adorable "bite-sized buddy" comes with a lobster claw ring, making it easy to take along with you. Each String Doll possesses a special positive power that inspires and motivates wherever they're carried (the name of the doll and special power is described on a fabric tag attached to each). There are over 90 dolls to choose from, including Jetty Betty whose purpose is to chase the fear out of the future and Farmer Jones who helps you make greener choices. Hand crafted in Thailand from one continuous piece of string, Susie retails for \$10. Fifty cents of each sale is donated to charities that help women obtain mammograms and education about the prevention of breast disease. To learn more, check out www.kamibashi.com.

the emerald city just got
a little greener.

Welcome to **elaia**. Connecting you with the goodness of the Earth and the progressive thinking of our city. Seattle's newest spa is housed in the soon-to-be LEED certified Hyatt at Olive 8. Our Market Fresh treatments are dedicated to eco-friendly practices that minimize our impact on the planet. *Respect the body, respect the earth.*
