The people who brought you the [string doll gang](#) now have one-of-a-kind [koonin family pets](#). Oh, look - their [debo superheroes](#) are good, too. I could probably use one of each.

And here's something that I don't think is for sale anywhere, but I came across the pic on [say no to crack](#) and couldn't resist posting it. I'll bet that David Hasselhoff doesn't have stained glass in his honour!
