Collectible Characters Woven with Heart and Soul

Back in 2005, Kamibashi brought 16 String Doll characters to North America after founders Kristen Daniels Doherty and her husband Chris saw how popular the tiny dolls were in Japan. Each one is handmade in Thailand, forged of a continuous piece of cotton string, resulting in 2"-3" character keychains positively packed with personality. In fact, "The String Doll Gang" has grown to include over 90 different charming choices.

Think of these as the anti-vooodoo doll. In addition to the darling details, each carries a unique and uplifting power printed on the attached fabric tag. Some of our favorites:

- Willow, sporting a ying-yang shirt and standing in tree pose, helps you "find your way om"
- Isabelly, a tiny belly dancer with sexy sash around her waist, will "shimmy your shyness away"
- E-Moe, complete with teardrop, will "feel sad so that you don't have to"

String Dolls have been corporate gifts, wedding favors, and sold in school fundraisers. These quirky, inexpensive, and collectible keepsakes are the perfect pick-me-up for almost anyone, and a great gift for nearly any occasion. Put them on your coworkers' desks, leave them on a frazzled friend's doorstep, or tuck one beneath your tween's pillow after a tough day. It's hard to stop at one.
