TAKE YOUR IMAGINATION FOR A RIDE!

Awesome Reusable Bags and Really Cool Key Chains!

Our selection of really cool key chains with Monskeys, String Dolls, Freak O Bags, Blabbos, Uglydolls, piggy flashlights, rubix cubes, and cloud b key chains with blue led lights.

We were so excited to get our new order from Kamibashi that we couldn't wait to share all of these new items with you. We put all of our fun key chains up on a special end cap by the front counter. The new Freak O Bags from Kamibashi are really neat, they are portable reusable bags that tuck into a really cute pouch that looks like a monster, dog, or cat. I usually carry the standard chicco bag style clipped onto my purse, but I think my new monster Freak O Bag looks much more stylish!

Below are some more detailed pictures of some of our favorites. These make great gifts for kids, teens, and adults.

We have Freak O Bags in these styles (and another kitty style) in a variety of colors.

These are Blabbos, they come in 4 shapes, but each one has unique embellishments and fabrics, so cute!

Just a few of our favorite new stringdolls: Dexter, Medusa, Vincent (the actually has gauze over where his ear should be) and Purl.

Early Work would like to welcome Mr. & Mrs. Kasoogi to our Uglydoll family!
