The String Doll Gang by Kamibashi are tiny characters amazingly made from only one piece of string. Handmade in Thailand these playful accessories can be used as keychains, on backpacks, or wherever you desire. The Kamibashi team spent several weeks in Thailand working with local weavers to create such unique characters. They have worked to setup fair trade practices and support the villages the weavers live in. There are 130+ String Dolls to choose from at \$10 each.
